# INTRODUCTION

---

This guide is intended for Protected Lifestyle Lebanon.

For LifePlan Lebanon please refer to the LifePlan Lebanon Protection Fund Guide for the relevant fund choices.

Protected Lifestyle Lebanon is all about providing protection, and in the insurance industry there are generally two different ways to do this:

1. A plan where you make payments and get nothing back if you stop paying; or
2. A plan where you make payments which are invested and may be worth something even if you stop paying and bring it to an end.

Protected Lifestyle Lebanon is the latter.

This guide provides you with information about the funds that your plan can invest into.

# CHOOSING YOUR FUNDS

---

You tell us which funds you would like your payments to be invested in. We invest your money creating “units” in the fund, and each unit is valued using the fund price. As the fund price goes up your units increase in value and as the price goes down they decrease.

The goal for your plan is to be worth a similar value, or more, to the cover you require at the point of making a claim.

Protected Lifestyle Lebanon offers a Lebanese deposit fund which you must invest at least 50% of your payments into. But you can invest more if you want.

With the remaining amount you can choose up to 4 other funds from a range of funds provided by some of the world’s leading managers including BlackRock, BNY Mellon, JP Morgan and UBS.

Some funds perform better than others during the ups and downs of market conditions so we provide you with a range of funds in different sectors and asset classes with different risk ratings.

## **WHY YOUR CHOICE MATTERS**

Imagine an athletics team. Now think about all the different events that those athletes will take part in. Why are there specific athletes for certain events? Why not have one person take part in every event? It simply comes down to some individuals being better adapted to certain events than to others.

Likewise with investments you have some which are designed to achieve one goal and others designed to achieve something else.

The question for you is whether you prefer the type of athlete who consistently achieves respectable times and results or the potential of a star who could win the championship but is equally likely to finish last?

In our industry the level of risk you are willing to take to achieve growth is described as your risk appetite, and you need to decide how much risk you are hungry for.

Funds matter because the selections you make will determine how your plan performs and the experience you have whilst meeting your goals.

# ASSESSING RISK

---

To help you understand the level of risk attached to each fund, a risk vs reward scale of 1 to 7 is used.

The scale is calculated using a European industry standard, with 1 indicating lower risk and 7 being higher risk.

You will see the risk indicator in a document referred to as the "KIID". This is the Key Investor Information Document. You can find copies of these online via your specific product fund centre on our website at [www.rl360.com/fundcentres](http://www.rl360.com/fundcentres)

If for any reason a fund within the range doesn't use this standard or produce a KIID, our fund data provider, Morningstar, calculates the appropriate risk rating for us.

## DIGGING DEEPER

Your adviser can provide you with professional support in choosing the right funds to meet your objectives, but if you want to know more for yourself we provide access to more than just the KIID.

In the Documents section of our online fund centre you will find these documents provided by each fund manager:

**Fund Prospectus** - a legal document that details the investment objective, policy and strategy of a fund or group of funds. This is an in depth and technical document.

**Factsheet** - usually produced each month providing a summary of performance, holdings and charges.

The fund centre is also a great place to keep up to date with daily price changes and performance over a selection of time periods and methods. It allows you to produce graphs, look at several funds side by side and produce a printable performance bulletin for all the funds in the range.

It even lets you filter the range of funds in a number of ways including by risk rating. Our online fund centre is updated daily and is the very best place to go to ensure you have all the latest fund information available.

# MAKE YOUR SELECTION

---

The following overview lists each fund available by sector along with a range of information about it. Most of these are clear, but some terms you might be unfamiliar with, so here is an explanation:

**ISIN** - this is simply a reference which identifies the fund in line with international standards.

**Domicile** - this is where the fund structure has been established, many of which will be in Luxembourg.

**AMC %** - annual charge applied by the fund manager for running the fund, already taken into account in the fund price.

**Perf fee %** - this is a performance fee that may become payable where the fund performance has exceeded a certain amount (in fund literature you might see this referenced as the “benchmark”, “hurdle rate” or “water mark”). Performance fees are normally payable in addition to the AMC but also reflected in the price. The fund prospectus will tell you more.

**Fund of funds** - this is when the fund invests into a series of other funds, these may be offered by the same fund company or multiple other fund companies.

**Socially conscious** - these funds generally invest into companies that operate by certain ethical principles, provide social benefits or are sensitive to the environment.

**Remember you can choose up to 4 additional funds along with the Lebanese Deposit Fund and you can make changes at any time. We call this a “switch”. A switch form is available on our website to help you do this. If you are registered to view your plan online and have applied for online switching, you can even conduct your own switches online quickly without the need to post any forms to us.**

Data is sourced from Morningstar® and is correct as at 3 December 2018

Please note that for external funds a bid/offer spread of 2.5% applies to each fund. This means you buy units at the offer price which are then valued in your plan at the bid price. The bid price is 2.5% less than the offer price. For the Internal Funds the bid and offer price will be the same.

# FUND OBJECTIVES

---

## INTERNAL FUNDS

### Lebanese Deposit Fund

The fund intends to offer a high degree of capital preservation and liquidity alongside a steady increase in value by investing in a range of deposits issued by Lebanese banks.

## EXTERNAL FUNDS

### Currency/Money Market

#### Goldman Sachs Liquid Reserve

The fund seeks to maximise current income consistent with the preservation of capital and daily liquidity by investing in high quality money market securities and instruments.

#### UBS (Lux) Money Market Fund

A broadly diversified portfolio of selected money market instruments from top-class issuers. The fund portfolio's average residual term to maturity may not exceed one year. The overriding investment objective is to preserve capital by generating continuous positive returns.

### Equity - Asia Pacific Including Japan

#### Matthews Asia - Asia Dividend

Aims for total return with an emphasis on providing current income (i.e. income and capital appreciation).

### Equity - Europe Including UK

#### Jupiter Global Funds European Growth

The fund objective is to achieve long-term capital growth by exploiting special investment opportunities in Europe.

### Equity - Global

#### BNY Mellon Global Equity

Seeks to achieve a long-term capital growth through investment primarily in a portfolio of equity securities of companies located

worldwide. Up to one third of the sub-fund's assets may be invested in a portfolio of equity-related or debt securities of companies located worldwide.

#### Fidelity Funds Global Dividend

Aims to provide income and long-term capital growth. At least 70% invested in income producing company shares globally. The choice of assets is guided by attractive dividend yields in addition to the potential for capital growth.

#### First Eagle Amundi International

The fund seeks to offer investors capital growth through diversification of its investments over all categories of assets and a policy of following a "value" approach. To pursue its goal, it invests two-thirds of its net assets in equities, equity-linked instruments and bonds without restriction in terms of market capitalisation, geographical diversification or in terms of what part of the assets of the fund may be invested in a particular class of assets of a particular market.

#### Franklin Templeton - Franklin Mutual Global Discovery

The fund aims to achieve capital appreciation by investing in common stock, preferred stock and debt securities convertible or expected to be convertible into common or preferred stock of mid or large-cap companies of any nation with a market capitalisation around or greater than US\$1.5 billion. It may also seek to invest in the securities of companies involved in mergers, consolidations, liquidations and reorganisations.

#### Invesco Global Equity Income

The fund aims to generate a rising level of income, together with long term capital growth,

investing primarily in global equities. ## IT'S DOWN TO YOU

---

**WE ARE HERE AS PART OF  
A LONG-TERM, ONGOING  
RELATIONSHIP AND WANT YOU  
TO ACHIEVE YOUR GOALS.**

---

We can't make any investment decisions for you and are not responsible for how the funds perform.

You must be happy with the fund choices you or your adviser makes before going ahead. We do not check their suitability for you.

We offer online access to all of our plan owners so you can monitor your plan performance daily if you wish. We can't stress enough how important it is you treat your plan like any other financial product you have, review it regularly, ask questions and talk to your financial adviser about anything you are unsure of.

# IMPORTANT INFORMATION

---

There's no getting away from the fact that whether you choose low risk, high risk or a combination of both, there is always some risk. In the most extreme of cases this could result in you receiving nothing back from your plan.

Your plan is protected by the Isle of Man Compensation of Policyholders Protection Scheme which will cover an amount equal to 90% of your plan value (subject to the provision of the scheme) should RL360 become insolvent.

This protection does not extend to fund companies becoming insolvent, and because the funds are owned in the name of RL360 it is extremely unlikely that compensation will be available from other schemes.

We would also like to make you aware that fund prices will go up and down during the life of your plan and just because a fund has performed well in the past doesn't mean it will continue to do so in the future. You should also consider the impact of exchange rates on fund prices which might fluctuate purely due to the value of one currency compared to another.
