

## Client Fund List Performance as at end of Q4 2015 (for policies taken out after 6 April 2010)

Source - Financial Express. Performance is discrete annual percentage growth, except for Since start of data % which is cumulative growth. Figures are on a bid to bid, gross total return basis (i.e. all income reinvested without any deduction of tax) and in the fund currency. \* denotes a multi-manager fund. # denotes that the Since start of data % figure is based on the available price history held by Financial Express as shown in the Start of data column, and not based on the actual launch date of the fund which is different.

Where no performance data is available from Financial Express, this is represented by a hyphen (-).

## Client Fund List Performance as at end of Q4 2015 (for policies taken out after 6 April 2010)

Source - Financial Express. Performance is discrete annual percentage growth, except for Since start of data % which is cumulative growth. Figures are on a bid to bid, gross total return basis (i.e. all income reinvested without any deduction of tax) and in the fund currency. \* denotes a multi-manager fund. # denotes that the Since start of data % figure is based on the available price history held by Financial Express as shown in the Start of data column, and not based on the actual launch date of the fund which is different.

Where no performance data is available from Financial Express, this is represented by a hyphen (-).

### Important Notes

\*\* Fund risk rating guide: Ratings range between 1 and 7. 1 = lower risk, potentially lower reward, 7 = higher risk, potentially higher reward. Please refer to the *Investment Guide* for more detailed information on the ratings.

Please note that past performance may not be repeated, therefore it must not be used as a guide to future performance. These figures have been prepared for information purposes only and are not an invitation to purchase an investment on the basis of information given, nor do they constitute investment advice. The price of units in the investment funds reflect the value of the underlying assets of the funds and can go down as well as up. Where a fund invests in overseas securities, the unit price may also rise and fall purely on account of exchange rate fluctuations. RL360 Insurance Company Limited is not responsible for, and will not compensate Policyholders in relation to, the performance of their underlying funds.

The statistics are based on prices as at 31 December 2015

Owners of policies issued by RL360 Insurance Company Limited receive the protection of the Isle of Man Compensation of Policyholders protection scheme, which covers an amount equal to 90% (subject to the provisions of the scheme) of RL360's liability where it is unable to meet its financial obligations. RL360° reserves the right to adjust the returns to cater for any levy or charge made on it under the regulations or similar legislation.
